BRING YOUR OWN DEVICE 2022

Images are examples only

SPECIFICATIONS

Netbook/Laptop:

- CPU: Core i5 or AMD equivalent
- RAM: 8GB of memory or more
- Storage: 256GB SSD or better
- Screen: at least 1920 x 1080 resolution
- Battery: a battery that will hold at least a 6-hour charge
- Windows Version: Win10 Professional

Tablet:

- Screen: 8" TFT LCD display which offers sharpness, clarity and more natural looking colours
- RAM: 4 GB of RAM which ensures that you can effectively multitask between apps
- Storage: should include storage capacity of 32 GB with the option to add an additional 512 GB via micro SD
- Camera: outward facing camera - 8 MP for clear photos and front facing camera - 2 MP
- CPU: Quad-Core processor to ensure that single apps load quickly, animations play smoothly and you can browse through your media with ease.

We can quote all the clichés “unprecedented”, “uncertain times”, “new normal” but the reality is that technology is a major part of our daily lives. Many schools have had to adjust their learning programs to ensure that they include the ability to transition to remote learning should the need arise. A major factor in this is students having access to their own devices.

Next year all learning will incorporate online components with the use of Microsoft Teams and most of the Certificate Courses being offered in Year 11 require the use of online platforms. This means that all students will require access to computers. We would love to provide a computer for every student at Bullsbrook College however we are unable to do so. This is where BYOD comes in! Bringing your own device to school will allow you to link to the campus wireless network, meaning you can access internet and curriculum materials as well as communicate with your teachers and fellow students.

PLEASE ENSURE:

-  You have a legal and licensed version of a **supported operating system** and software. For your protection as well as ours you will need **anti-virus software**.
-  Your **device is fully charged for each day**. Your device cannot be connected to any external network while you are on the school grounds.
-  That you remember you are solely **responsible for the maintenance, upkeep and safety of YOUR device**.
